WHAT YOU’LL DO
• Lease contract creation and processing: use proprietary and third party software to drive growth in a leaderboard focused culture
• Develop & optimize processes: scale new and existing processes to allow the business to efficiently operate and grow
• Product improvement: proactively search for new insights which could improve key strategic processes to drive supply growth
• Partner relations: manage relationships with important stakeholders in several areas of our business

WHAT YOU’LL NEED
• Bachelor’s Degree
• 1-3 years of professional experience; recent graduates are encouraged to apply!
• Data driven decision making mentality and sound business judgment through strong analytical thinking
• Ability to take initiative in a constantly-changing work environment
• Startup (all-hands-on-deck) “I bust my ass because I love it” approach
• A willingness to be “in the trenches” working with our business partners
• Auto industry knowledge preferred, but not required
• Strong communication skills and ability to interact with internal and external partners
• Superior organizational skills and great follow through on tasks
• Be a problem solver at heart with a genuine interest in learning by doing

PERKS
• Employees are given Uber credits every month
• Ground floor opportunity with the team; shape the strategic direction of the company
• The rare opportunity to change the world such that everyone around you is using the product you built. We’re not just another social web app, we’re moving real people and assets and reinventing transportation and logistics globally
• Sharp, motivated co-workers in a fun office environment
